Chief Academic Officer

Gary Smith
Chief Operations Officer

Dear Parents,

In grades K-5, we have implemented a school-wide Title I program which support high achievement in literacy and math for all students. Our goal is that all students will leave fifth grade reading, writing, and with math skills at grade level. Targeted students below grade level expectations will receive Title I services to support their needs in literacy and mathematics. Students may receive Title I support services in one or more of the formats below:

- Flexible classroom tutoring with a Title I teacher
- Title I teacher support within the classroom
- One-on-one instruction with a Title I teacher
- Small group services out of the classroom with a Title I teacher

This instruction is in addition to the reading and math instruction provided by the classroom teacher. The additional instruction will support and compliment the instruction provided by the classroom teacher.

If your child is working below grade level expectations in reading and/or math as determined by our assessments, they will qualify for receiving additional support. Students receiving Title I services this year may continue services into the Fall until our new assessments are given and scores for your child are reviewed.

If you would like more information about our Title I program, please call us at 465-7384 or contact your classroom teacher for specific information regarding your child's learning.

Sincerely,

Keith R. Morin
Assistant Superintendent
Title I Coordinator
